

Energy Commission Monthly Meeting

April 1, 2015

Location: Senior Room A - City Hall Basement

**Commission members present Robert Saley and new member Aaron Charney
Meeting was opened at 7:03 pm.**

Aaron introduced himself and we discussed how we could help the West Haven manage it's energy needs. The discussion centered around the cities need to keep our utility bills for our buildings up to date. Caryn and Renny really set the foundation for that and we need to continue it.

We also wanted to gather information on our new solar installation on City Hall and the one on the Arts Center. Aaron would work on the Arts Center and I would contact The Finance Department and get the conversation going about continuing our benchmarking of our buildings.

We also discussed trying to find additional members for this commission.

Adjournment was at 730pm.

Old Business

Due to the lack of a quorum, Rob and Caryn were present, no official meeting was opened, but there was discussion about some old and new business. Non-meeting opened at 7:10pm

Also present were Ted and Brian from Next Step Ilving.

First Caryn updated us about the cities benchmarking and that Amy Thompson, from the University Of New Haven, was and still is working with this.

Brian and Ted came to us to explain the slow permit process that they are experiencing

in the West Haven Building Department. Caryn has spoken with the department head Mr Riccio, and has asked for a meeting with all parties to discuss our concerns. Caryn will set up meeting once she gets everyones schedules.

Meeting over at 810 pm
