INSTRUCTIONS AND CHECKLIST

Obtain Application Forms from the Planning and Development Department. Sixteen (16) folded maps and collated copies of the Application and supporting materials shall be filed unless staff determines prior to filing time that fewer copies are necessary. Check off items below as you complete them. Based on application type not all fields may be required. City Wetland agent will advise which fields or requirements apply. In all circumstances commercial applications are required to complete all fields.

1. APPLICANT PLANS shall include the following information:

- 24" x 36" or 18" x 24" sheet size, or multiple sheets of these sizes.
- Location Map at a Scale of 1" = 500'.
- Names and Addresses of adjacent property owners
- The geographical location of the property which is to be affected by the proposed activity.
- Tax Assessor's Map and Parcel number(s) of subject property or properties.
- Applicant's name, address and telephone number.
- Applicant's legal interest in the land (i.e., owner, option holder).
- Property Owner's name owner, home and business address, telephone number(s) and written consent to the proposed activity set forth in the application.
- Description of existing flora and impact of application on the environment
- Description of the existing wildlife and effects of this application on habitats.
- Review and explanation of effect on any flora or fauna listed in the Department of Environmental Protection Endangered Species database.
- If filling or dredging is proposed:
 - Calculations of area and volumes to be dredged or filled
 - Final height or depth of filled area above mean high water level
 - Grade of slope before and after grading or filling
 - Calculations for 25, 50 and 100 year storm water drainage
 - Flood levels including Flood Map Numbers

INLAND WETLAND APPLICATION INSTRUCTIONS

PAGE Five

2. INLAND WETLAND PLAN NARRATIVE, which may be included on the site plan map:

Describe the development, including SESC Plan if applicable, and schedule for grading and construction activities, with:

- Start and completion dates.
- Schedule of grading and construction activities.
- Phasing of project, if applicable.
- Construction details for proposed SESC measures and storm water management facilities.
- Sequence for installation and/or application of SESC measures.
- Sequence for final stabilization of the project site.
- Installation and/or application procedures for proposed SESC measures and storm water management facilities.
- Operations and daily maintenance program for proposed SESC measures and storm water management facilities.
- Individual responsible for monitoring control measures, office address, and 24/7 telephone number(s).
- Provisions for contingency plan if unforeseen erosion or sedimentation problems arise, including emergency situations caused by storms; any features of the site which may be particularly vulnerable to erosion, such as ridge tops, swales, and soil types and control measures specific to these features.

3. SOIL EROSION AND SEDIMENT CONTROL SITE PLAN MAP(S) shall include the following information:

- A site plan map(s) at a suggested scale of 1 inch = 40 feet with 1 foot contour intervals, but may be more or less detailed to meet site specific needs, including:
 - A north arrow, street names, scale, date prepared, and name of preparer.
 - Location of proposed development and adjacent properties, including all buildings within 25 feet of the property line.
 - Existing and proposed topography showing one (1) foot contours, including flood zones, wetlands, watercourses, water bodies, and soil types.
 - Existing vegetation and natural resources on site, including major trees (8" + caliper), proposed changes.
 - Existing structures on site, including paving, fencing, buildings, sidewalks and paths, archaeological sites, etc
 - Proposed alterations including cleared, excavated, filled or graded areas; proposed structures, utilities, roads and, if applicable, new property lines.
 - Location of and design details for all proposed SESC measures and storm water management facilities over the period of construction.
 - Construction details for proposed SESC measures and storm water management facilities.
